Coal Mining in Kentucky.

The pleasant fact is made known that coal mining in Kentucky is on 12:42 p. m., daily. any other State.

With this safety the production increases. The production for 1909 was nearly half a million tons greater the than 1908 and 140,000 tons less tha the banner year of 1907.

The total selling value of coal at own the mines was an average in 1909 of 94,19c per ton, a decrease of 5.51 has from the price of 1908. The average in in the western district shows a determined and the crease of nearly 8 cents a ton, or 7.92c. It is manifest, we think, that the coal miner and the minera themciub selves are not getting very much selves are not getting very much of the increased cost of coal to companies of doctors, who for a dom has come and man who has from the price of 1908. The average the consumer.

The cost in life is shown by the statement that for each death by accident in and out of the mines placed a number of notice make produced. How with Laber simps; the placed a number of notice with the placed and number of notice with the placed with the placed and number of notice with the number of number of notice with the number of n For each 1,000 persons employed Ky., or JAMES SIMPS there was 1.81 from deaths by acci- Floyd Co., Ky.
